

# LADDER-MAX™

We Make Ladders Safer!

TieGrrr Straps safely secure loads

1. Stronger buckle for greater safety - 1,400 lbs instead of the standard 500 to 800 lbs
2. Directional "Web Feed" arrow on buckle to increase safety
3. Center spring doesn't wear out webbing or cut fingers like the straps of many competitors
4. Stronger webbing than competitors - 1,200 lbs breaking strength
5. Stronger thread than competitors
6. Permanent warning tag for greater safety
7. Angled, smooth-webbed end for faster, easier use and reduces frayed ends

Tie Down Ladders and Secure Payloads  
Straps come in 4 convenient lengths
